The insurgents also are preparing military actions elsewhere. large numbers of guerrillas from all five factions are scheduled to arrive soon in the Guazapa stronghold near San Salvador to try to secure the area prior to				
controversial and divisive figures, and if either gains a first round majority, considerable political turmoil may result. If a second round runoff of the top two vote-getters is necessary, the support of the National Conciliation Party likely will prove crucial, and it may add stability to the resulting government. The Party is being courted by D'Aubuisson but it is still uncertain which way it will go. In other political developments, a split in the Popular Liberation Forces (FPL), one of the largest of the five insurgent groups, appears to be widening and eventually may affect guerrilla unity. Two dissident factions support the protracted war strategy of former Popular Liberation Forces leader Cayetano Carpio and reject the current leadership's position, which calls for negotiations on insurgent terms. The largest faction, the Revolutionary Workers Movement, has severed all ties with the FPL and represents at least half of the organization's membership. The other dissident faction is the group's combat and logistic unit in the San Salvador area, which claims credit for the recent assassination of a rightwing political deputy and generally supports a militant strategy. The insurgents also are preparing military actions elsewhere. large numbers of guerrillas from all five factions are scheduled to arrive soon in the Guazapa stronghold near San Salvador to try to secure the area prior to the elections. The insurgents also are preparing military actions elsewhere. large numbers of guerrillas from all five factions are scheduled to arrive soon in the Guazapa stronghold near San Salvador to try to secure the area prior to the elections. For its part, the Army has begun the next phase of the National Campaign in Usulutan Department. Two elite "immediate reaction" battalions are sweeping the western part of the department, and they hope to follow up an expulsion of the guerrillas with civic action projects, however, success of the program will depend on the government's formation of civil	•

GUATEMALA

Political	
Chief of State Mejia has issued a new electoral law preparing the way for a Constituent Assembly election in July, and most political parties are turning to organizational tasks in anticipation of the voting. Guatemala's strongest party, the ultra-rightist National Liberation Movement, has agreed to an electoral alliance with a smaller rightwing group, and it is discussing a broad rightist coalition with two other parties, Several leftist and centrist parties also are considering an alliance The government says almost 700,000 voters have been registered, mostly in Guatemala City, and that it is moving now to register voters in rural areas.	25X1 25X 25X
If current trends persist, the traditional political parties—with well-established constituencies and financial backing—are likely to dominate the balloting and control the assembly. Mejia's decision to allow 23 of 88 assembly deputies to be elected as national at-large candidates will work in their favor. Moreover, the provision of the law that permits local "civic committees"—as well as political parties—to nominate candidates may indirectly help the right wing by damaging the chances of new leftist and centrist groups. The Western Highlands' Indians, long ignored by Guatemala's political system and with little party loyalty, may support a host of "civic group" candidates well-known locally instead of aligning themselves with the newly formed parties courting them. Lastly, the registration process thus far has concentrated on areas that have been the electoral preserve of the rightwing parties in the past.	25X
Mejia did not accede to the parties' demand that the assembly have legislative functions, including the power to name a provisional president, and his opponents may claim that his opposition demonstrates his intent to remain in power. Some party leaders also assert that the military's control over the civilian defense forces is paralyzing political organizing in the countryside. They are concerned that the Army will manipulate the votes of the estimated 500,000 patrol members, We have no evidence of the military's intent to tamper with the political process, but perceptions of the legitimacy of the elections—at home and abroad—could be undermined if such accusations continue. The government may ask several countries, as well as the Organization of American States, to send election observers to help ensure the integrity of the balloting.	25X1 25X1 25X

	Nevertheless, we believe Honduran leaders are deeply concerned about the military situation in El Salvador and see their best interests served by continuing current cooperation. A meeting between the Foreign Ministers and Defense Ministers of both countries is scheduled for 10 February to discuss bilateral relations. The territorial issue probably will remain deadlocked, however, until it is referred to the International Court of Justice next year as stipulated in the bilateral peace treaty of 1980.	25 X 1
	Military	
	The Honduran Air Force is Central America's largest, but it continues to have problems maintaining its effectiveness. A Honduran Air Force A-37 crashed on takeoff while reacting to the shootdown of the US helicopter at the Nicaraguan border 11 January. This reduces the Honduran A-37 inventory to 10, and the will have difficulty replacing the lost pilot. Besides its manpower problems, the Air Force faces the need to replace its aging Super Mystere jet fighters and C-47 transports. Honduras wants to obtain US F-5 jets and C-130 transports to meet these requirements.	25X1 25X1 25X1
	COSTA RICA	
	Political	
	President Monge in mid-January bowed to domestic political pressure and suspended some development projects involving US military engineers near the border with the Nicaragua. Administration officials told the US Embassy that the presence of armed US personnel would require Monge to obtain approval from the legislature, which probably fears that a US military presence would jeopardize San Jose's claim to neutrality and threaten Managua. Government leaders also wanted to avoid protracted congressional debates that might have delayed passage of the budget and other economic measures crucial to achieving a new agreement with the IMF. Monge agreed to smaller-scale projects away from the Nicaraguan border area to demonstrate a continuing interest in US aid programs, but there is little chance that any of them will	
	begin before 1985.	25 X 1
	Party has widened over the past month moderates appear to be on the verge of recapturing top party positions from the radicals, who staged a surprise takeover in November. Government leaders also wanted to avoid protracted congressional debates that might have delayed passage of the budget and other economic measures crucial to achieving a new agreement with the IMF. Monge agreed to smaller-scale projects away from the Nicaraguan border area to demonstrate a continuing interest in US aid programs, but there is little chance that any of them will begin before 1985. A split between moderate and extremist wings of the Costa Rican Communist Party has widened over the past month moderates appear to be on the verge of recapturing top party positions from the radicals, who staged a surprise takeover in November. The conflict between the two factions will likely peak at an upcoming party congress. The schism will almost certainly erode the party's limited influence in the Costa Rican political arena, especially if the defeated	25 25

PANAMA

Political	
Panama's presidential race achieved added definition in January when longtime political figure Arnulfo Arias announced that he will again be an opposition candidate for the election in May. Although earlier attempts to form an opposition alliance have failed, US Embassy reporting indicates that the party's secretary general is confident that several other parties will now join the Authentic Panamenistas.	25X1
The official added that Arias—if elected—would not seek the removal of Defense Forces Commander Noriega so long as the military refrained from political activity. He would, however, press for the retirement of several high-ranking officers and try to end the military's involvement in various business ventures. In return, Arias would ensure that the armed forces receive the funding necessary to continue their force development.	25X1
The military, in our judgment, will have serious difficulty in accepting an Arias	0.5374
candidacy because of his longstanding animosity toward the armed forces.	25 X 1
indicated that one of Arias' own	25 X 1
political advisers, for example, has concluded that the military will not allow Arias to take office, nor accept a president he has endorsed. Arias' intent to retire some senior officers and curtail the lucrative business dealings of the military may push Noriega to consider preemptive measures, including possible postponement of the balloting. Moreover, Arias' decision to run now places added pressure on pro-government candidate Nicolas Barletta—who lacks Arias' charisma and voter recognition—to quickly prove his popular appeal or otherwise risk replacement by the military.	25 X 1
popular appear of otherwise risk replacement by the initially.	20/1
Noriega may turn to President de la Espriella to run again, even though the incumbent recently vetoed amendments to the electoral law that would have removed some of the legal barriers to his reelection. The opposition severely criticized the proposed changes in the law. Noriega sought the changes in case	25 X 1

continuing military support.	25X1
REGIONAL PEACE NEGOTIATIONS	
The Contadora Vice-Foreign Ministers met in Panama in late January to install members of the military, political, and economic committees. The three committees were established at a joint Contadora-Central American foreign ministers meeting in early January, which also set forth guidelines for the negotiations. The Central Americans—with Contadora participation—will now address the difficult task of drafting treaty terms. The committees are scheduled to complete their agenda by 29 February and to present their recommendations no later than 30 April.	25 X 1
and to present their recommendations no facer than 30 April.	23/1

The Sandinistas have attempted to maintain the offensive on Contadora issues by criticizing statements about US military bases and exercises in Honduras as a violation of the spirit of the regional negotiations. The Sandinistas scored points when ambasadors to Nicaragua from three of the Contadora countries recently praised their progress toward elections. The Central American "Core Four" are encouraged that the guidelines embrace the concept of military balance, because this provides a starting point for pursuing Nicaraguan disamment. In a recent conversation Nicaraguan from the Sandinistas interpret military balance to mean that Nicaragua should have sufficient forces to defend itself against an attack by a coalition of its northern neighbors or by the United States. Dissorts said that it would be easier for Nicaragua to be flaxible if CONDECA is disbanded, and that a bilateral agreement with the United States is a practical necessity. 25X1 25X1 25X1 25X1 25X1	Declassified in Pa	art - Sanitized Co	py Approved for F	Release 2011/12	/02 : CIA-RDP85	T00287R00090101000	1-2
